

## Dandelin's maze

Are you as quick, noisy and funny as Dandelin? Then this maze is just right for you! Practise important words and train your motor skills.

If there's snow on the ground where you are, you can stomp the lines of the maze into the snow. If not, no problem – you can also make the labyrinth with chalk in the park, with flour in the garden or with painter's tape at home.

Design your maze as big and varied as possible. (You can even include obstacles to jump over or get around). Your parents can give you instructions and tell you whether to move through the maze quickly, slowly or really quietly. You can even make loud music and dance through the maze or hop through it like a kangaroo.

**schnell** (= fast)  
**langsam** (= slow)

**laut** (= loud)  
**leise** (= quiet)
